

SwimSwimmer::SwimBackward

SwimSwimmer::SwimForward

SwimSwimmer::Swim

```
graph LR; A[SwimSwimmer::SwimBackward] --> C[SwimSwimmer::Swim]; B[SwimSwimmer::SwimForward] --> C;
```

The diagram illustrates a relationship where two specific methods, 'SwimSwimmer::SwimBackward' and 'SwimSwimmer::SwimForward', both point to a more general method, 'SwimSwimmer::Swim'. The arrows indicate that the specific methods inherit from or specialize the general 'Swim' method.
